

RAFAEL COELHO

Developer

ABOUT ME

Self-taught, I started developing with PHP and JavaScript in projects and working in website development jobs and then I learned C#, Java and other languages for back-end development.

Today, I work developing features and services for a system built in .NET and Angular JS.

And in personal projects with JavaScript (Node.js, React.js, React Native), Flutter.

I love being a developer and wish I'm always trying to improve my knowledge.

GENERAL INFO

Sex: Male
Address: Domingo João de Carvalho, 42
São Paulo - Brazil
Phone: +55 11 97609-2174
Email: rafaelfcoelho8@gmail.com
Portfolio: github.com/rafa-coelho
